

## **Problem Statement**

Uppgift 1: Read Becher & Trowler (2001) and reflect about the next points:

- Create a map that describes your territory and your tribal affiliations within academy.
  - What is your tribe or tribes?
  - formal or informal?
  - Which place do you occupy inside the tribe?
  - Which cultural expressions can you identify?
  - Which metaphors match your tribe?
- Make a text about your findings in point 1 (max 1000 words).
- Blog about it latest 16 sept 23.00.

## **Notes**

- " The land exist without obsrver but landscape cannot: the scape is the projection of the human consciousness, the way the land is perceived and response to (Bowe.etal 1994) pg.16
  - ... Knowledge communities...pg.21
  - Chapter 2: Point of departure - relationship between tribes and ideas(territories which range)

## **The classification**

Pure and applied, hard and soft - all related to the classification of knowledge

## **The knowledge**

In the book there is a table that cathegorize the different groups of knowledge into differentiate groups.

But the important for me is how this groups are grouped. The selection is made by using a set of diferentiators, or characteristics by identifying a set of general questions

- characteristics in the objects of enquiry
- the nature of knowledge wrought
- the relation between the researcher and knowledge
- enquiry procedure
- extend of truth trends and criteria for making them
- the results of research
